Core Pipeline

This section tests table of contents indexing, syntax themes, callouts, and tables.

NOTE

This is a high-priority informational note.

IMPORTANT

Verify that all custom header tokens and watermarks are rendered properly.

```
interface EngineConfig {  
  theme: string;  
  watermark: boolean | object;  
}  
  
export function initializeEngine(): EngineConfig {  
  return { theme: "corporate", watermark: true };  
}
```
